Welcome

Welcome to the web site for the *International Wealth Advisors Forum*.

This is an annual gathering of senior tax and estate planning professionals from leading private banks, accounting firms and family offices; organizations that manage the wealth of individual families.

Participation is by invitation. The purpose of the Forum is to facilitate a high-level exchange of ideas and in-depth dialogue on issues that are critical to the international regulatory aspects of private client business. Participants come from Europe, North America and Asia to share viewpoints, and measure their practices against some of the world's best, and build relationships with their contemporaries in other companies and professional firms.
